

AUDIO VISUAL SUPPORT

To many companies the use of audio visual equipment is now an everyday occurrence. And as technology develops, the opportunities to enhance presentations from beyond the basic projector driven show are now endless. To enable our customers to take advantage of the latest technology we are now offering a full range of AV systems and support for your presentations, events and meetings.

From your brief, our team of qualified professionals can help you identify the most effective and exciting way to put over your presentation. Every project is assigned a project manager whose role it is to deliver your brief to specification on time and on budget.

You may be one of the many organisations who have their own in-house AV equipment and for these we can offer a full programme of scheduled maintenance designed to keep your equipment in full working order. Preventative maintenance ensures that you get the most out of your equipment and maximises the effectiveness of your system. Kalamazoo - Reynolds' team of skilled and dedicated engineers provide a comprehensive aftercare and support service. We can also offer a 'fix' service should the equipment fail. If you need additional or replacement equipment we can supply this from our extensive range.

A service to suit your needs

Whether short or long term contract rentals Kalamazoo - Reynolds offers bespoke solutions for every application from a simple one day projector hire to a full corporate product launch. We can supply projectors, plasma screens and sound equipment to fulfil your requirements no matter how short the notice. We source equipment from leading AV manufacturers and the stock is regularly updated.

Kalamazoo - Reynolds also offers comprehensive training courses to enable you to get the very most from your AV equipment and to make your presentation ideas become reality.

No project is too big or too small

Whether you're planning to attend an exhibition or presentation, you'll want to make the most of it. Kalamazoo - Reynolds can provide technical support including set, staging, design, construction and rigging of all AV equipment. We offer a seamless and professional service including on time delivery of equipment, speedy set-up, and collection of all goods.

For truly cost effective hire solutions, consider long term contract rentals. You benefit from our access to the latest technologies and a clear upgrade path for the rental and technical support of your equipment.

Customer satisfaction is key to everything we do
